

## **Title: Portneuf Auxiliary Awards Scholarships**

The Portneuf Medical Center Auxiliary is pleased to announce the four recipients of the Auxiliary's \$1200 Scholarships. Each year, the Auxiliary supports Portneuf employees who are pursuing degrees in a health related profession.

Because of a tie between two of the applicants, we will be giving four scholarships instead of the usual three. This years recipients are: Undergraduates - Marcie L. Brown and Jason Ralphs, Graduate Students - Diana L Stone and Kimberely Van Wyk.

Marcie L. Brown has worked for Bannock and PMC since 1996. She currently works in the Emergency Department assisting nurses and doctors with procedures and many other duties. Marcie will receive her License for Practical Nursing in July, 2009. After another year of prerequisites, she will apply to the ADRN program.

Jason Ralphs will graduate with a Bachelor of Science from the Radiographic Science Program at ISU in May, 2009. He has worked as an Environmental Service aide at Portneuf since June, 2007. Jason's goal is to work as a Radiologic Technologist after graduation.

Diana L. Stone is a Registered Nurse working in the ICU/CN-ICU Department at PMC since July of 2006. She is currently working on a Master of Science Degree in Nursing Leadership at ISU. After completion of her degree, she plans to remain at PMC sharing her knowledge with others.

Kimberly Van Wyk is a Pharmacy Intern in the Pharmacy Department at Portneuf Medical Center since May, 2007. She is working on a Doctor of Pharmacy degree at ISU. She is married to a Clinical Psychology graduate student and is expecting their second child in the Spring. She will finish her graduate program also in the Spring. She wants to be a pharmacist in a hospital setting in the future.
